Environmental Policy

Bartlett Engineering (South Wales) Ltd. is an engineering company based in Port Talbot, specialising in manufacturing engineered components to customer requirements. Their highly trained engineers can work from drawings or samples and reference their library of international standards. Bartlett maintains its position with an ongoing and significant investment programme in new plant and equipment.

Bartlett Engineering (South Wales) Ltd's areas of greatest environmental impact are use of raw materials, energy use and waste production.

In recognising these impacts and demonstrating a commitment to pollution prevention and continual environmental improvement, Bartlett Engineering (South Wales) Ltd will:

- Comply with the requirements of all relevant environmental legislation and have regard for associated guidance notes.
- Commit to the recovery, recycling and re-use of products.
- Make effective use of all natural resources.
- Reduce the environmental impact from transportation.
- Minimise energy use.
- Commit to the education and training of all employees in relevant environmental matters.
- Review and audit all environmental aspects of its environmental procedures.

This Policy will be subject to annual review, will be communicated to staff and made available to all interested parties.
